

the LOOK[®]

Limited One Year Warranty

Effective January 1st 2023

the LOOK[®] engineered sliding system comes automatically with a **One Year Limited Warranty** against all manufacturer defects and includes Windmaster Smartlook, GR8LOOK, SlideKit, iSlide, 1-Shot, LCT. LCS Load Covering Solutions reserves the right in determining the nature of the warranty issue. Upon the manufacturer's authorization, the following warranties shall apply. All Warranty inquiries **MUST** be identified by stating the System's Serial I.D. # to our Customer Service Tech.

- Any parts or materials used in the assembly of the LOOK[®] which are found to be defective in the first year will be replaced at no charge.
 - Any labour required to install defective parts will be covered by LCS for a period of one year from the In-Service Date of the system. Labour will be performed at LCS or at an authorized service and repair facility. No labour will commence until written authorization is provided by LCS and scheduled in accordance with current service schedules. Designated customer repair or service facilities can be Authorized to carry out the repair work under the approved guidelines as set forth by the manufacturer at the pre-determined cost allowance.
 - All authorized warranty will be issued by an LCS Purchase Order. No customer invoice will be paid if our P.O. is not referenced.
 - If the LOOK[®] was originally purchased through a trailer dealer; any warranty claim must first be reported by the end user to the O.E.M., Load Covering Solutions prior to any work being performed.
 - Any unauthorized repairs or alterations performed will automatically null and void any and all LCS warranties.
 - Any freight charges associated with shipping of specified parts in accordance to the warranty policy shall be prepaid at the manufacturer's expense.
 - Any freight charges associated with having the system returned for authorized warranty work will be at the sole expense of the End User or Dealer Agency.
- The Installation Contractor assumes 100% responsibility for any warranty resulting from improper installation or workmanship.
 - For all component warranties beyond one year **labour is not included**.
 - Damaged components must be fully replaced to honor extended warranty.
 - Any Foreign, Copy Cat or a-like parts that are not LCS Certified and used in substitution are forbidden and therefore NULL AND VOID all Warranties.
 - Failing to follow operating and maintenance instructions could void any and all warranties.

the LOOK[®] Bulkhead: Any cracking of materials deemed defective is covered against manufacturer defects for One (1) year. Cracking of welds related to stress, negligence or other is not covered under any warranty.

the LOOK[®] Lock & Tensioning Mechanisms: Front Automatic Locks & our rear lock & tensioning mechanism "Loc'N-Load[®]" are covered under warranty for One (1) Year against manufacturer defects. **Must be maintained regularly. (See lubricant instructions)**

the LOOK[®] Frame System & Up-lifts: All modular car frame components and up-lifting assemblies are covered under a One (1) year Warranty includes labour. Wear and tear, damage, or negligence is NOT COVERED. BEWARE of excessive snow, rains or wind that could cause damage to the frames system specifically a flat top system. It is recommended to remove these elements as quickly as possible from the inside, pushing upwards into the tarp roof and with a wide push broom, allowing for run off. (Reference our Disclaimer in this Warranty Document)

the LOOK[®] Track System: The aluminum extruded track and stainless steel insert are covered under a One (1) year Warranty including labour. Wear and tear, damage, or negligence is NOT COVERED. Light Bar and Weather Seals are covered by a One Year Limited Warranty.

the LOOK[®] Metal Wheel System: Utilizing the minimal number of wheels (28 wheels on a 48 ft. and 53 ft. system)
All Bearing Service or Replacement is recommended after 2 1/2 years. All wheel bolts, snap rings, spacers and nuts are not covered.

the LOOK[®] 20 oz. Tarpaulin & Rear Flap Hardware: All vinyl material is covered under warranty for One (1) Year against manufacturer defects. All separation of Velcro pockets (or other securement designs) from the main body of the tarpaulin is covered by warranty for one year if determined to be part of manufacturer welding or installation defect. Loose tension of the tarpaulin will result in pockets coming unsecured. Pockets are commonly damaged by tow motors during loading and unloading. Check often for peeling of pockets from main body of the tarp. All hardware associated with the rear flap is covered under warranty for one year, with the exception of the pull-up rope.

Tarp Adjustment: Adjust accordingly in order that damage does not occur to the main body of the tarpaulin covering and its construction. The tarpaulin needs to be inspected when the trailer is loaded and empty. Wind whipping of the vinyl is identified as long narrow spider cracks and is caused by the tarpaulin not being tensioned correctly. **Alternate reinforcing available upon request to protect in high wear areas.**

To ensure the maximum life expectancy of all the LOOK[®] Sliding Tarp Systems, the following criteria is set forth as a guideline:

1. **Maintaining Quarterly Maintenance programs in accordance LCS Maintenance Guide.**
2. **Avoiding operational hazards and conditions.**
3. **Driver orientation for proper operation of the LOOK[®]**

Disclaimer: the LOOK[®] engineered sliding system is designed as a Load Covering System protecting against most general weather contaminants. Our Systems are not considered to be a Structurally Supported Roof or Side Load Bearing Enclosure. Severe weather or conditions referenced as ACT OF GOD such as excessive snow, rains or wind can cause damage to a rolling tarp system and is not covered by LCS warranty. All warranties DO NOT apply under these conditions. NEVER allow trailers to sit for long periods of time without checking for damage to the Roof & Structure.

Warranty is non-transferable
